Tanana Fair Board,

The fair has been an annual time for many smaller communities to come together in one place to share their purposes with the wider community. Our M4L community's purpose is to unify, educate and empower parents to defend their parental rights at all levels of government.

We had hoped to share this vision with our community and we were surprised to have been rejected an opportunity to do so.

"Does not meet current guidelines." is the Fair Boards response to our application.

We asked what those guidelines were specifically and your response..."Our decision is based on our exhibitor policies and is final." provides us with no corrective action for future applications.

The exhibitor policies on the TVSFA website provide no clear guidelines that we violate leaving us to conclude that TVSFA does not support Parental Rights. This position does not represent our community.

Our plans are to continue to apply and we ask that you will reconsider in the future.

Please examine Moms for Liberty's mission statement and work across the country for factual information of our work.

Thank you,  
Gail McBride
