Thank you to everyone who piped in with information about local businesses' COVID precautions!

I've compiled all the information in this document. Please take a minute to look through it. What businesses have we missed? What could we add?

I'll post images of the document in comments below too, so you don't have to open a document if you'd rather not.

Finally, would anyone like to volunteer to call some of these businesses to verify information before we put it out there into the world?

Thanks again!
